

Monash University Northern Plaza Clayton Campus, Melbourne, Vic

Monash University is a renowned public research university in Melbourne. The University was founded in 1958 and has four campuses across the Melbourne metropolitan area, with one in Clayton, 20km south east of Melbourne's CBD. The Clayton Campus is the largest of all Monash University's campuses, with eight faculties on site.

Project Design Brief

To improve power and security across the campus, new cable infrastructure was required for lighting, communications and CCTV coverage. Several new cable pits were specified to house these services, with designers wanting covers to blend in with the surrounding pavement.

ACO's Solution

- Single part **Rhinocast®** decorative edge access covers

Benefits

- Rhinocast® infill covers provide a 40mm high stainless steel decorative edge allowing the cover to be filled with the adjacent paving material. This provides a discreet and uniform finish
- All covers are designed to meet Load Class B (AS 3996) for maintenance vehicles

Other ACO products used

- Trench drainage systems (ACO Drain®)
- Trafficable cable enclosures (ACO Cablemate®)
