## Eastern Busway Stones Corner Station

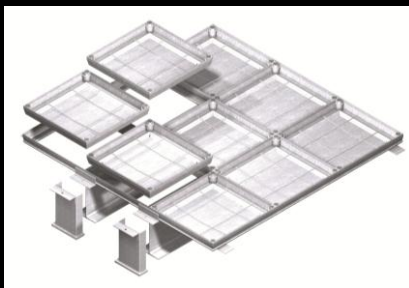

*The second stage of Brisbane's Eastern Busway Project comprises a 1.1km bus transitway costing \$465m.*

*The Stones Corner station is one of 2 stations whose route links the University of QLD to the South East Busway (Stage 1).*

*In keeping with the design philosophy of previous busway projects in Brisbane, designers wanted to eliminate unsightly service enclosures where possible.*

*ACO's Urbanfil® covers with brass edging were selected to preserve the visual continuity of the charcoal coloured honed concrete finish of the station walkways and thoroughfares.*
